

With 1.9 million civilian workers (including DOD civilians) and 1.4 million uniformed personnel, the federal government is the largest single employer in the United States (Source: White House 2008 budget numbers and OSD). Keeping that workforce informed on pertinent news and information that impacts their careers is critical.

That's why federal employees turn to Federal Employees News Digest (FEND). For more than 59 years, FEND has served as a leading provider of books, newsletters and other information services to employees of the federal government and the U.S. Postal Service. As a trusted source for news and reference materials, the FEND product portfolio presents an ideal forum for savvy advertisers looking to reach and impact thousands of engaged federal government readers (both active and retired).
